## Waste separation at home: What can I put in my bags or bins?

Waste is produced in every household. With this brochure we will help you to facilitate the separation of waste at your site.

### We pick up from your property:

- Wastepaper in the wastepaper bin
- Bio-waste in the organic waste bin
- Residual waste in the residual waste bin
- Packaging materials in the yellow bags
- Furniture, electrical appliances and other bulky waste from the household via the bulky waste removal

Please put your bio, paper and residual waste bins, the yellow bags and the bulky waste out by 6.30 a.m. on your collection date at the front of your property.

### For the following waste we established collecting points:

- Please bring hazardous waste to the local collection centres
